Pipeline Program Overview

Eugenio Maria de Hostos Community College's Division of Continuing Education and Workforce Development was awarded a Health Profession Opportunity Grant (HPOG) from the US Department of Health and Human Services' Administration for Children and Families to offer the **Allied Health Career Pipeline Program**.

The **Allied Health Career Pipeline Program** is an enhanced career-focused job training program for low-income populations to gain careers in the allied health professions.

Eligibility Requirements

Program participation will require that you must:

- be at least 18 years of age
- pass a background check and drug screen
- have an aptitude, experience and/or strong interest in health care in allied health
- meet income eligibility requirements
- meet minimum education and English language requirements (High School Diploma/GED preferred)
- provide proof that you can legally work in the United States
- provide documentation to determine eligibility
- be able to attend, fully participate, and successfully complete all aspects of the program

Intake and Assessment

In addition to meeting the above eligibility requirements, student candidates:

- take a TABE Test in Reading and Math to meet educational levels for specific courses
- complete and submit medical and drug clearance forms
- participate in the intake conference session

For more information, kindly call (718) 664-2537

Thanks for your interest in the Allied Health Career Pipeline Program.
